

Workshop

Monitoring effective development co-operation: what have we achieved; how can we do better?

29 November 2016

Aberdare room

Kenyatta International Convention Centre, Nairobi, Kenya

Annotated Agenda

Background

The Second High Level Meeting (HLM2) of the Global Partnership for Effective Development Co-operation will take place in Nairobi, Kenya on 30 November-1 December 2016. A key objective of HLM2 will be to take stock of the implementation of development effectiveness principles and commitments agreed at the Fourth High Level Forum on Aid Effectiveness (Busan, Republic of Korea, 29 November-1 December 2011). In particular, the first plenary session of HLM2 will focus on this topic, highlighting achievements so far and agreeing on actions to overcome challenges and accelerate effective development co-operation.

The Workshop ***Monitoring effective development co-operation: what have we achieved; how can we do better?*** will provide a dedicated time and space for participants to prepare for the political discussions to take place during HLM2 plenary sessions. This Workshop will promote in-depth discussions on progress made and challenges encountered in promoting more effective development co-operation. Discussions will also highlight success stories, encourage knowledge sharing and peer learning around innovative solutions, and identify key actions and practical next steps after HLM2 to promote more effective development co-operation.

Objective

This workshop will be an opportunity to:

- Present and discuss the findings from the 2016 Global Partnership Progress Report
- Share views, experiences, good practices and innovative and practical approaches around implementing development effectiveness principles and commitments
- Identify priority areas of action to address bottlenecks and foster more effective development co-operation

- Reflect on how to improve the Global Partnership monitoring framework in the context of the 2030 Agenda

Discussions will draw on the findings from the 2016 Global Partnership Progress Report, online consultations, regional consultations and other recent preparatory events ahead of HLM2. Its conclusions will be reported during the first HLM2 plenary session.

Target audience

This workshop is open to all HLM2 participants. Representatives from countries and organisations taking part in the 2016 Global Partnership monitoring round (i.e. national co-ordinators and constituency focal points in-country and at headquarters) are particularly encouraged to attend.

Programme

8:30-9:00	Participants arrival
