Global Partnership
Monitoring Data
Dashboard

Presentation to the Steering Committee at its
15th Meeting
22 April 2018

www.effectivecooperation.org/monitoring-dashboard
Why a data visualization Dashboard?

- Improve utility of the data at the country-level, including through provision of disaggregated data on performance
- Compare progress across regions and contexts to facilitate peer-learning
- Facilitate dialogue on progress between development partners

What does it include?

- 2014 and 2016 monitoring data
- Data from comparable indicators from the Paris Aid Effectiveness monitoring process (2005, 2007, 2010)

Next steps

- User review process in late April / early May for minor refinements
- 2018 data to be added after completion of the 2018 round, and possibility to add additional features based on resource availability

www.effectivecooperation.org/monitoring-dashboard
Review performance for all countries and organisations in a given year

Global Partnership

Map Viewer Screen

On this tab, Global Partnership monitoring results can be displayed by partner country or development partner. Select a type of partner, year and indicator to start exploring.

**Partner Country**

**Development Partner**

**SELECT YEAR**

2010 2014 2018

**INDICATOR**

10: Is aid untied?

What does this indicator measure?

**FILTER COUNTRIES BY:**

**REGION**

Select Region

**INCOME GROUP**

Select Income Group

---

**Tajikistan: View Country/Territory Profile**

**Indicator 10. Aid is untied**

84.0% of development co-operation has been untied.

---

Mouse over the map to see historical performance

Click on a partner country to see its Country Profile

Click on a country to view a pop-up with all results for the selected year

---

www.effectivecooperation.org/monitoring-dashboard
Compare two countries’ complete results against averages by region or income-level.

On this tab, results for all countries can be compared against averages by region, income group or country context. Select a country or average to start exploring.

### 1. SELECT YEAR
- 2010
- 2014
- 2016

### 2. SELECT TWO COUNTRIES TO COMPARE RESULTS:
- Albania
- Belarus
- Eastern Europe

<table>
<thead>
<tr>
<th>Indicator</th>
<th>Albania</th>
<th>Belarus</th>
<th>Eastern Europe</th>
</tr>
</thead>
<tbody>
<tr>
<td>% of new development interventions that draw objectives from country-led results frameworks</td>
<td>79.5%</td>
<td>100.0%</td>
<td>87.3%</td>
</tr>
<tr>
<td>% of results indicators drawn from country-led results frameworks</td>
<td>89.2%</td>
<td>65.9%</td>
<td>63.0%</td>
</tr>
<tr>
<td>% of results indicators monitored using the partner country’s own sources</td>
<td>74.5%</td>
<td>55.5%</td>
<td>60.3%</td>
</tr>
<tr>
<td>% of new interventions that plan a final evaluation</td>
<td>78.8%</td>
<td>50.0%</td>
<td>63.1%</td>
</tr>

View performance of a development partner across all partner countries.
View the historical performance of development partners at the country level.

Historical Performance

2016 global performance for Asian Development Bank (AsDB)

Historical performance for Asian Development Bank (AsDB) in Vietnam

Indicator 5a: % of funding disbursed as scheduled

On this tab, development partners’ performance can be explored at the country level for each available year.

Click on a development partner to see historical performance

www.effectivecooperation.org/monitoring-dashboard
How can all development partners use the Dashboard?

To help facilitate action on monitoring results:

- **Evaluate** monitoring results and assess performance to understand where further emphasis may be needed.

- **Compare** performance against peers with similar typologies in support of mutual learning on successful approaches.

- **Explore** their own historical performance, to assess if progress is being made over time.
