

EFFECTIVENESS: CRITICAL FOR ENABLING THE 2030 AGENDA

- While progress is being made, **achieving the 2030 Agenda will require urgent additional efforts.**
- We have **what** we want to achieve in the Sustainable Development Goals (SDGs), and a framework for what this **needs** in the Financing for Development (FFD) process.
- Complementing these by addressing **how** we partner and work together will be critical to getting the 2030 Agenda back 'on track'.
- The internationally-agreed effectiveness principles provide a framework for all stakeholders to maximise the potential of each dollar spent:
 - ✓ **Ownership by partner countries**
 - ✓ **A focus on results**
 - ✓ **Inclusive partnerships**
 - ✓ **Transparency & mutual accountability**
- Their power and relevance are evident in the **record 86 countries** that participated in the 2018 Global Partnership monitoring exercise.
- The effectiveness principles, in line with the 2019 HLPF theme, aspire to a **more empowered, inclusive, and equal** rapport between partners, for more sustainable development outcomes.

WHY A SENIOR-LEVEL MEETING?

The Global Partnership's Senior-Level Meeting will:

- ✓ **Affirm effectiveness as an essential driver for sustainable development:** new country-level evidence will help galvanise development actors for the changes needed to accelerate efforts towards the 2030 Agenda.
- ✓ **Expand the effectiveness 'network' by convening development actors on a more equal footing:** a global and multi-stakeholder constellation of key decisionmakers from governments, multilateral organisations, civil society, the private sector, trade unions, parliaments, foundations, and academia.
- ✓ **Explore effectiveness challenges and priorities for the future:** with discussion of cross-cutting and emerging issues in development effectiveness, to help identify priorities, especially to reach those furthest behind.

THE SENIOR-LEVEL MEETING WILL LAUNCH

- **2018 Global Partnership monitoring results from a record 86 countries** and over 100 development partners, covering more than 3,300 projects and programmes
- **Principles for Effective Private Sector Engagement** through development co-operation
- **A Global Compendium of Good Practices**
- An effectiveness **Knowledge-Sharing Platform**
- **Tailored approaches to monitoring effectiveness**, including in fragility contexts, and for the effectiveness of South-South Co-operation
- **Voluntary Guidelines for Effective Triangular Co-operation**
- **A Co-Chairs' Statement**, to capture the latest efforts by partners on making development more effective.
