Stakeholder requests and Steering Committee guidance

Over the course of two years of consultations, GPEDC stakeholders requested that:

- ***LNOB is featured more prominently in reformed monitoring framework***
 - ***data and statistical systems are essential in informing policies to LNOB***

Steering Committee agreed that LNOB in GPEDC framework should be:

- ✓ linked to effectiveness principles/commitments
- ✓ limited to where GPEDC has comparative advantage
- ✓ assessed across several elements of the framework (no standalone indicator)
- ✓ Building on existing measurements
- ✓ Captures country-level behaviour

LNOB in the Nairobi Outcome Document

The Nairobi Outcome Document:

- Reaffirms the 2030 Agenda's pledge to leave no-one behind and recognises that "development co-operation must leave no-one behind to be effective"
- Commits partners to **energise the implementation of all previous commitments** with a pledge to leave no one behind
- Emphasises the importance of **disaggregated results frameworks, data and statistics** for LNOB
- Underlines role of the **private sector** in contributing to LNOB
- Recognised the need to support **gender equality and women's empowerment** and to focus on **youth and children**

GPEDC approach to LNOB

- 1. Consultation** of representatives of vulnerable and marginalised groups
- 2. Targets and results** indicators to track progress for women & girls, youth & children, vulnerable and marginalised
- 3. Data and statistics** to identify vulnerable and marginalised, and monitor progress on targets and results
- 4. Targeted focus of private sector engagement** to promote partnerships that deliver development results, including for populations at risk of being left behind

LNOB within the revised framework – partner countries

Where?	What?
National development strategies/ plans	<ul style="list-style-type: none">• Consultation in the preparation of the NDS and inclusion in dialogue on development priorities and results• Development priorities for women and girls, youth and children, vulnerable and marginalised• Disaggregated targets and results indicators (by sex, age, geographic area, etc)• Data-based assessments to identify vulnerable and marginalised• Disaggregated data and statistics are available to monitor progress on targets and results indicators
Accountability mechanisms	<ul style="list-style-type: none">• Inclusion in joint assessments towards targets for development co-operation

LNOB within the revised framework – development partners

Where?	What?
Country-level strategies	<ul style="list-style-type: none">• Consultation in preparation of the strategy• Development priorities for women and girls, youth and children, vulnerable and marginalised• Data-based assessments to identify vulnerable and marginalised• <i>Support to increase the capacity of vulnerable and marginalised groups to organise and represent themselves</i>
Country-level interventions	<ul style="list-style-type: none">• Distributional analysis and disaggregated data to define targets and results indicators for the beneficiaries of their interventions

LNOB within the revised framework – other elements

Where?

Kampala Principles assessment → dedicated session

Assessment of **enabling environment for CSOs** and CSOs development effectiveness

SDG 5.c.1. – systems to track and make public budget allocations for gender equality and women's empowerment

+ *Existence of systems to track and make public budget allocations for vulnerable groups of the population (e.g. for the poorest, youth and children, the elderly)*

Questions for discussion – breakout group

- *Do you think the approach can generate relevant evidence to guide action of governments and development partners towards LNOB?*
- *Based on your experience [in your country/agency/organisation], do you see any challenges in the approach, including in collecting data for specific questions? What do you suggest to address or mitigate them?*

THANK YOU!
