## ADOPTION OF OUTCOME DOCUMENT & CLOSING CEREMONY

At the halfway-mark of the 2030 Agenda for Sustainable Development, the Effective Development Co-operation Summit brought together concerned groups in their diversity and at decision making level, to reflect on the “how” of development co-operation, and build a common understanding about urgent measures to be taken. The Summit has emphasized the urgency of building trust and working together in an era of interlinked challenges. It has pointed out concrete ways to transform how all actors with a stake in development co-operation work together to regain traction and accelerate progress on the 2030 Agenda for people and planet. The Closing Session will conclude the Summit by the adoption of the outcome document. The parting Co-Chairs Bangladesh and Switzerland will look back at key successes and achievements of the last term since the last high level and senior-level meetings. The incoming Co-Chairs Indonesia and Sweden as well as the remaining Co-Chair DRC and the remaining Non-Executive Co-Chair will give an outlook into the implementation of the Summit’s outcomes and future priorities.
