**GLOBAL PARTNERSHIP: TRANSFORMING THE WAY WE WORK TOGETHER**

With only halfway to go till we reach the 2030 deadline and with overlapping challenges and crises, we must strengthen political momentum for and champion development co-operation that is **country-owned, focused on results, inclusive, and transparent and mutually accountable** – the four principles of development effectiveness. By bringing diverse development actors together on the basis of a principle-led approach, the Global Partnership fosters **trust and policy action in countries**. It provides **new and relevant evidence** that empowers country-level actors to understand and tackle challenges towards better development co-operation.

**WHY DEVELOPMENT ASSISTANCE MEMBERS (DAC) & DONORS?**

Donors play a critical role in supporting sustainable development strategies and plans and keeping the focus on the world’s poorest and most vulnerable people and regions in making sure that “no one is left behind”, especially in times of crisis.

In an increasingly fragmented development co-operation landscape and with budgetary pressures, it is critical to ensure effective, principle-led, evidence-based development co-operation partnerships are applied to address pressing dilemmas.

**HOW? DONORS ARE UNIQUELY POSITIONED TO:**

- **Honour country ownership** and use local capacity and systems to deliver country-level priorities, guided by national plans.
- **Enable results** that deliver the SDGs and serve those furthest behind.
- **Invest in** inclusive, evidence-based and frank **dialogues** to strengthen long-term, reliable and trust-based partnerships at the country level.
- **Strengthen transparency and accountability** on strategy, choices, use of resources and results.
- **Support the UN system’s role** in strengthening partner countries’ efforts to coordinate development partners, through inclusive action dialogues.

**REACH OUT TO YOUR REPRESENTATIVE & BE PART OF CRITICAL DISCUSSIONS:**

- **Mainstream effectiveness at country level and translate global policy into country action**, contributing to the advancement of the SDG Agenda.
- **Build a new effectiveness movement** by mobilising peers across the development co-operation landscape from within the DAC at ministerial level, as well as partners in the MDBs, vertical funds and other development actors.
- **Address the obstacles** that have held us back to date through an open and frank discussion at the highest political level to transform the way we work.
