International Regional Workshop on the Implementation of the Global Partnership for Effective Development and Its Linkage to the Post-2015 Development Agenda: *Challenges and Way Forward*

Background

The Fourth High Level Forum on Aid Effectiveness held in Busan, Republic of Korea, in 2011 represents a critical turning point in development co-operation. In Busan, over 3,000 delegates reviewed global progress in improving the impact and value for money of development assistance. They further proceeded to adopt the Global Partnership for Effective Development as an agreed framework for development cooperation embracing traditional donors, South-South Cooperators, BRICS, CSOs and private funders.

The Global Partnership for Effective Development is a forum to foster political accountability for the implementation of commitments at the political level, whilst facilitating knowledge-sharing. Regular Steering Committee meetings, and inclusive Ministerial consultations stand as key pillars of the Global Partnership's catalytic role to promote strategic and effective political alliances in the name of poverty eradication.

The first Ministerial meeting is expected to take place in the first quarter of 2014 with a view to build consensus around the four shared principles of the Global Partnership [i.e. (i) Country Ownership; (ii) Results; (iii) Inclusive Partnership; and (iv) Results and Accountability], and establish the Global Partnership as "the go-to partnership" in support of the implementation of a vision centred on poverty eradication, wealth creation and inclusion in the context of the post-2015 Development Agenda.

In its inception, the Global Partnership is directly linked to MDG 8 (*Develop a Global Partnership for Development*). The second Steering Committee meeting held in Bali, Indonesia on 23-24 March 2013 recognised the Global Partnership's potential to guide the process of "how" to achieve "what" is being proposed in the post-2015 development framework. As a direct result, the Co-Chairs of the Global Partnership shared an open letter with the UN Secretary General's High Level Panel of Eminent Persons on the post-2015 Development Agenda to highlight the relevance of the Global Partnership's work and the potential for building positive synergies around a successor to MDG 8.

The open letter emphasizes the notion for the Global Partnership to act as a pivotal enabler in the effective implementation of the post-2015 framework. The letter also makes direct reference to the first Ministerial-level meeting scheduled for the first quarter of 2014 as an extremely well-timed occasion for the Global Partnership to reflect on the recommendations of the High Level Panel, and calibrate a series of tailored interventions in support of this agenda.

Scope and Objectives

As a member of the Steering Committee, Bangladesh represents a focal point for the successful implementation of the global agenda on effective development cooperation. In this spirit, the first international workshop for the Asia region on the Implementation of the Global Partnership for Effective Development and Its Linkage to the Post-2015 Development Agenda signals Government's firm commitment to (i) take stock of current development dynamics, on-going successes and persisting challenges; (ii) seek potential areas for deeper engagement in terms of linking the work of the Global Partnership with the post-2015 Development Agenda; and (iii) identify a mutually compatible set of policy initiatives and recommendations to further promote effective development cooperation in the region and beyond.

On the latter, in convening this workshop, the Government of Bangladesh wishes to propose the establishment of a consultative and inclusive regional Peer Support Mechanism (PSM) to support the role of the Global Partnership at regional level. The PSM is expected to play a key role in overseeing the formulation of a regional common plan of action for effective development cooperation to promote national and regional priorities at global level. This pioneering effort is expected to generate high level cross-border consensus and a common policy agenda to foster greater regional cooperation for effective development.

In line with the recommendations from the second Steering Committee meeting, the workshop will address (but not be limited to) the following agenda items preliminary tabled for the first Ministerial meeting:

- Review of progress in the implementation of the vision set out in Busan (e.g. inclusiveness, transparency);
- Strengthen the role of business in supporting development;
- Scale up development knowledge transfer, especially among developing countries and emerging economies;
- Achieve more effective taxation and domestic resource mobilization for development.

This event is ultimately intended to yield a compendium of national experiences on the implementation of the Busan commitments, carefully molded into a clearly articulated regional position for consideration and further deliberation at the first Ministerial meeting. The appended draft agenda remains subject to further feedback from participants and key stakeholders.

Expected Outcomes

The purpose of this consultation is to discuss the effective implementation of the Global Partnership and its nexus with the Post-2015 Development Agenda. As such, the focus of the workshop's deliberations will rest on (i) assisting participants in identifying new approaches to address common challenges in the implementation of the effective

development cooperation agenda through shared perspectives and lessons learnt; (ii) supporting Asian countries in the process of identifying appropriate avenues to link the implementation of the Busan agenda with the Post-2015 development agenda; and (iii) providing an opportunity for all key stakeholders (e.g. host governments, development partners, civil society, and the private sector) to critically review the agenda and put forward policy recommendations.

The expected outcomes of the workshop include:

- A Common Plan of Action for Asia in implementing the Global Partnership for Effective Development Cooperation to effectively support the work of the Global Partnership and contribute to strengthening the link between the post-Busan and the post-2015 Development Agenda as a direct contribution for the first Ministerial meeting;
- Terms of Reference for a Peer Support Mechanism (PSM) to fill the void between the global agenda and oftentimes isolated national initiatives. The PSM will also play a key role in fostering strategic links across relevant knowledge sharing platforms, and in developing greater synergies between various regional and global initiatives.

A unified Asian perspective on the implementation of the Global Partnership and its association with the Post-2015 Development Agenda represents an important step forward in enhancing the quality of Steering Committee deliberations, as well as informing the Ministerial level meetings of the Global Partnership.

Suggested participation

Expected participants in the workshop are:

- Representatives of Government from the Asia region [*Afghanistan, India, Pakistan, Vietnam, Nepal, Sri Lanka, Indonesia, Cambodia, Maldives, Philippines, Myanmar, etc.*];
- Representatives from the Global Partnership Steering Committee;
- Representatives from regional platforms such as CDDE, IATI, etc.;
- Representatives of the Building Blocks (Results & Mutual Accountability, Aid Fragmentation, CSO Development Effectiveness, etc.);
- Representatives from the OECD/UNDP joint team supporting the global partnership;
- Representatives from the Government of Bangladesh and its Development Partners (LCG ExComm and Aid Effectiveness WG members).
