

GPEDC Knowledge Platform: Challenge Areas

	Challenge Areas
1	Strengthening co-ordination and dialogue mechanisms
	National development co-operation and aid policies
	Inclusive consultation mechanisms
	Developing inclusive mutual accountability frameworks
	Increasing the quality of public-private dialogue
	Avoiding aid fragmentation
	MOUs and partnership agreements
	Institutional arrangements for countries receiving development co-operation
	Strengthening integration between national and sub-national planning
2	Strengthening country ownership
	Ensuring the contribution of all partners to development planning and implementation
	Ensuring development partners' alignment to national priorities
	Incentivising development partners' use of country systems
	Increasing the predictability of co-operation
3	Collecting, managing and using development co-operation data
	Establishing or strengthening information management systems
	Consolidating data collection processes and systems
	Understanding and using data captured in global databases (e.g. IATI)
	Incentivising reporting by development partners
	Increasing the use of development co-operation data
	Increasing the quality of development co-operation data
4	Building the capacity of all stakeholder groups
	Strengthening the understanding of effectiveness
	Increasing development partners' capacity to effectively deliver co-operation
	Adapting solutions to local contexts
	Creating an enabling environment for CSO engagement
	Creating an enabling environment for private sector engagement
	Strengthening local government engagement
5	Understanding and managing diverse financing flows
	Mapping all development financing flows
	Integrating systems for managing different sources of financing
	Integration of planning and budgeting processes
	Increasing the use of Public Financial Management Systems
	Linking financing to results

GPEDC Knowledge Platform: Challenge Areas

6	Effectiveness of emerging types of development co-operation
	Effectiveness of South-South Co-operation
	Effectiveness of triangular co-operation
	Effectiveness of private sector engagement through development co-operation
7	Understanding development partners' priorities
	Development partners' co-operation priorities
	Development partners' institutional arrangements for managing development co-operation
